Top 3 Programming
Languages In 2021

The craze of learning programming languages is very high. These days people have one question in their mind and that it which programming language should i learn and why? So now addisber is sharing Top 3 Demanding programming languages 2021 for a job and career prospective.

Source: www.thetechlearn.com

1. R as a programming language

R as a programming language was first conceived in the year 1992. R is a comprehensive and statistical analysis language, which encourages the developer to develop new ideas. R is an open source software, which works best on GNU, Linux and Microsoft Windows. Compared to Python, R is difficult to learn.It is also known as the future programming language.R Programming language

Advantage:
» Capable to run flawlessly on different OS.

» Mushrooming community

» Open-source and free

» As per the requirements, you can make tweaks

2. Python

Python is the fastest growing and one of the top programming language amongst its competitors. Python Web Based Development and Python Web Based Framework like Django and Pyramid has been the most popular Framework tools offered by Python. The best thing about Python programming is that being a high level language it is easy to learn. It is the most demanded language in the market and is called the programming language for beginners since it is an open source language, which is easy to understand and comprehend.

Python language has wide application, some of which can be seen in Web & Desktop Development, Network Servers, Machine Learning, GUI Based Desktop applications.

Advantage:

» Very easy to use and learn

» Emphases on code readability

» Wide-ranging library support

» Open-source programming language

» Have a good community support

3. KOTLIN Programming language

A Google endorsed now currently the most loved programming language. KOTLIN was originally developed by JetBrains, which is fully operable with Java and comes with no limitations. It also supports functional programming languages. The application of KOTLIN is for Android Development, Web Development, Desktop Development and Server Side Development.

Being a newly launched programming language, KOTLIN has found usage in some big companies, like Coursera, Uber, Pinterest and Post Mates. A KOTLIN certified professional can expect a starting salary package ranging between Rs 2-5 lacs per annum.

Advantage:

» A good compiler

» An Efficient programming language

» Provides an improved run-time performance

» Absence of raw types.

መልካም አዲስ አመት!

Happy Ethiopian New Year!
